REPORT OF COUNTY COMMISSIONERS.

TO THE CITIZENS OF STRAFFORD COUNTY:—

We respectfully submit our annual report together with those of other county officials for the year ending Dec. 31, 1902. We find, in closing up the year's business, that in many of the departments the cost has been more than the estimates on which the appropriations were based.

Excess court expenses	\$2,244 36
“ jail “	907 02
“ insane “	1,967 30
Board of children (more than last year)	920 00
County Farm, “ “ “ “	3,120 12

This last item is due principally to the increased cost of food and fuel.

The changes in the House of Correction were completed early in the year, and a turnkey employed who looks after this part of the institution. Under the new system the prisoners live entirely separate from the inmates, and there is no entrance from the House of Correction to the Alms House. The prisoners are kept at work under the oversight of Turnkey A. F. Wilkinson.

The general management of County Farm and House of Correction has been under the supervision of Mr. and Mrs. Willand as superintendent and matron, with Dr. F. L. Keay of Rochester as physician. The agents in the several towns

have been careful in the management of the aid furnished off the Farm.

We desire to express our thanks to all officers and citizens of the county for assistance given us in the performance of our duties.

REPORT OF SUPERINTENDENT.

TO THE COMMISSIONERS OF STRAFFORD COUNTY:

Gentlemen—I herewith submit my report of the condition of the Strafford County Farm and the statistics of the Almshouse and House of Correction for the year ending December 31, 1902. The following improvements have been made during the year: The construction of a new tie-up in the cow barn; the rebuilding of the slaughter-house, and the erection of an addition to the piggery; the complete reconstruction of the spring and spring-houses, largely increasing the water supply for the farm, and extending the water service to the stable, cow-barn, slaughter-house, piggery and one pasture. I am indebted to County Commissioners, County Physician, and assistants at the Farm, who have been ever ready to aid me in the performance of my duties, and I hereby publicly extend my thanks to them all.

Respectfully submitted,

EDWARD A. WILLAND,
Superintendent.

Report of Physician.

TO THE COMMISSIONERS OF STRAFFORD COUNTY:

Gentlemen: I have the honor to submit my report as county physician for the year ending December 31, 1902.

There has been more than the ordinary amount of sickness at the county farm during the past year. Last spring every inmate and all the help, with two or three exceptions, were vaccinated, and there has not been a case of small pox during the year. The sanitary condition prevailing at the farm is excellent. The rooms are always clean and present a tidy appearance, due to the unflagging zeal of Superintendent and Mrs. Willand.

If I may be pardoned for it, I would strongly urge that the Trickey house, so called, be put into such repair that it may be used as a hospital for contagious and infectious diseases, including tuberculosis. In my opinion such a place should have been provided long ago, and the county is very fortunate that there has been no epidemic at the farm for some time, but this fact should not prevent guarding against the future.

I wish to thank Superintendent and Mrs. Willand for their aid and assistance in my work, and also the commissioners who have always been willing to furnish us with everything for treating the inmates to the best advantage.

Respectfully submitted,

FOREST L. KEAY, M. D., County Physician.

TO THE COMMISSIONERS OF STRAFFORD COUNTY:

Gentlemen: I have the honor as physician to the County Jail to submit my report for the year 1902.

The whole number of prisoners treated was 45, three of whom were women. There was no epidemic of contagious diseases and no deaths. The amount of sickness has kept about even with the average.

Yours respectfully,

JOHN S. MESERVE, M. D.

Report of Chaplain.

TO THE COMMISSIONERS OF STRAFFORD COUNTY:

The usual Sunday services have been held at the county farm as in former years. Visits among the sick have been much appreciated. The Christmas tree exercises were held and many presents given to the women and children, and a generous treat provided for all the inmates, by a number of young ladies from Dover.

The pleasant relations with the commissioners, the superintendent and family and the inmates enable me to appreciate the opportunity offered me of doing a little good.

H. E. WILLSON.

AUDITORS' REPORT.

The undersigned, Auditors of the County of Strafford, have examined the accounts of the County Commissioners for the period commencing January 1, 1902 and ending December 31, 1902.

We find a proper correspondence between the vouchers on file and the warrants issued for this payment, and all castings and balances are correct.

In the course of our examinations of these accounts we have found occasion to criticise some methods in vogue in reference to making up bills for services, and also in the appointment by the commissioners of themselves and others to take charge of the poor in the several towns and cities of the county. We thought it our duty to call the attention of the justice of the superior court who presided at the last and is to preside at the next term in the county to these matters in detail. Upon this a conference has been had with the commissioners and auditors by the presiding judge, in which he has advised and instructed the commissioners according to our views; and we have no doubt that the methods objected to by us will be corrected in the future administration of county affairs.

I It should be observed that under chapter 39 of the sessions laws passed in 1901 the commissioners are authorized in their discretion to appoint agents in the several towns to investigate applications, and look after the county poor in such towns. Prior to that time such agents had been appointed without authority of law by the commissioners in this county for several years; and this action was legalized for the future by chapter 39 in 1901. In the exercises of the

discretion conferred by this act the commissioners appointed agents for every town, themselves individually among the number. As auditors we took exception (1st) to the appointment of themselves as agents, and (2nd) to the appointment of any agents under the act, on grounds of economy and wisdom. The first objection has been provided for in future by the court, and the second in proper matter for the consideration of the commissioners and county convention. We do not know whether such agents have been appointed for the current year, or whether the commissioners intend to appoint such. We have not learned that such agents are appointed in other counties.

II The auditors have further suggested the impropriety of county commissioners selling goods to the county, or purchasing of the county, or having dealings with themselves as buyer and seller.

In this connection we wish to say that we have no reason to doubt the integrity of such dealings on the part of the present commissioners; that is to say, we have no reason to doubt that goods so dealt in have been actually delivered and used, in such quantities as represented, and at fair prices, so we cast no imputation upon the business integrity of the commissioners; but our objection is based upon general principles which must be obvious to all. The presiding justice has in this matter also laid down the general principle distinctly in his advice to the commissioners. We think the custom of officials dealing with themselves in these matters is one "more honored in the breach than the observance," and is a practice in which the county commissioners cannot afford to indulge.

III It is a matter in which it is very difficult to arrive at accurate and reliable conclusions, but we cannot withhold our conviction that the business of the county may be done with less expenditure of time, and consequently smaller bills, for services on the part of the commissioners. Examination

will show that each of the commissioners charges to the county about one half of the secular days of the year, and the clerk of the board much more than that. We cannot think this is necessary. We think also that a comparison of the county accounts of the state will show that the bill of the Strafford county commissioners is very large.

IV We think it our duty to call the attention of the people to the constantly increasing expenses of the county. We see no reason, in the nature of things, or in the conditions or numbers of occupation of the population, why the expenditures of the county should be materially greater than twenty years ago; but the annual tax levy is very much greater, and increasing year by year. Every item of the expenditure is greater—the county farm, the jail, the court, the outside support of the poor, the pay of county officers, etc. In our judgment reforms are needed in all these departments, and greater economy and vigilance in contracting and allowing bills, so as to save the county from unnecessary and extravagant, not to say extortionate, charges. We believe that a curtailment of expenses is practicable in every department, and that an investigation of these, item by item, will so show.

V If the tax payers of the county would exercise the same care and critical scrutiny and oversight in these matters which they give to their individual affairs, in our belief they would call a halt and find relief from very considerable burdens of taxation. It is with a view of arresting in this county what we think is a general and growing tendency to extravagance and waste of public money that we call attention to these matters; and for the reasons outlined above we have delayed the certification of these accounts, and make it at last accompanied by some criticisms which must necessarily be very general, because they are not the result of a minute investigation.
